

Guidelines for Filling Out Scantrons
Physics 2C, Spring 2013
Professor Frank Würthwein
TA: Brian Shotwell

Please make sure you do each of the following for every exam you take in this class:

- Write down AND bubble in your 3-digit exam code number under “EXAM NUMBER.”
- Do NOT write or bubble in anything under “ID NUMBER.”
- Bubble in the “TEST FORM” (A-D) that appears at the top of your quiz/final.
- Write your name on your scantron.
- Turn in your scantron into the correct pile (A-D).
- Use the correct scantron form: X-101864-PAR-L. Use a pencil!

Note that the 2nd bullet point is a new item – take note of this for future tests. If you bubbled in and/or wrote something under “ID NUMBER” for quiz 1, then you were not penalized for that quiz. However, do not write anything there in the future, or you will be penalized.

18 students made at least one mistake on quiz 1 despite the fact that the above instructions were explicitly written on the blackboard. These students were deducted a point on quiz 1: 10% of their quiz 1 score. Follow directions! 18 of you need a reminder of what the above would look like:

If you have any questions about any of the above, email bshotwell@ucsd.edu. Failure to follow any of the above instructions on any test will result in (at least) a 10% penalty for that exam.
